### Star Sex Fantasy

This explicit and honest look at an individual's sensuality and their capacity to indulge their fantasies is based on interpretations of the planets positions by zodiac sign.

The interpretation of Sun's position signifies what making loves means to you. The Moon's position indicates the way you "perform" each time you make love. Mercury tells us your thoughts and self expression when making love. Venus determines what you value and need most in your lovemaking. Mars helps you understand the driving force of your sexuality. Jupiter indicates your capacity and desire for love-making. Saturn lets you know where you feel most awkward or inhibited.

### Star Love

This part of the interpretation covers both the personal and generational aspect of idealised love and romance coupled with some simple words of advice based on the planets positions by zodiac sign.

Your Sun, Mercury and Jupiter mirror your way of being, speaking and creating chances for yourself. How you act, wonder and behave is revealed by your Venus, Mars and Neptune.

#### What making love means to Brad

You are full of warm feelings toward your partner. An ardent lover, for you romance is when you are filled with fervour and desire to make love in the open air, at sea, in the woods or just under the starlit sky. Making love can be wild and full of energetic thrusting, which sometimes can label you a sexual athlete. Companionship is of great importance to you, for you love to share your fantasies, exploring the bounds of your sexual imagination endlessly. However you can sometimes be totally lost during sex, indulging a private fantasy of you own.

#### The way you "perform" each time you make love

You can be a serious and shy lover who is very uncomfortable in those love-making situations where spontaneous sex and exuberant reactions seem called for. Therefore, you need to be reassured by your lover, for although you can be a little slow at first you will go all the way with plenty of love and encouragement.

#### Brad's thoughts and self expression when making love

You like secure surroundings and to know exactly where your going in your sexual exploits. Once you know the exact extent of what you are "in for", you can perform with distinction. With the right coaxing from your lover you are potentially a great and thoughtful lover, if a little reticent at first.

#### What you value and need most in your lovemaking

You take sex seriously. You want a lover with experience, who is able to turn you on. You are not satisfied unless you get what you want and when making love you will relentlessly pursue your desires to the end. You will not indulge in experimentation in sex unless the rules of play are well within defined limits.

♂ in ♈

**Driving force of Brad's sexuality**

You are careful and very determined in the way you express your needs for making love. When you have had enough experience you can be a great lover. Sexual education for you is important so as to expand the variety of your sexual techniques. You should obtain some early experience before the mould of Brad's sexuality is cast. For you are likely to erect certain behavioural boundaries early on and can be capable of sticking to them forever.

♃ in ♈

**Brad's capacity and desire for love making**

You are full of original ideas about love-making which swell up from within you to the surface quickly and spontaneously, these bursting urges require your lovers immediate attention and furtive fulfilment. You are not likely to wait for your lovers approval or want to discuss details but more likely to dive in directly, plunging into the thick of things to get fluids flowing before moving on to your next manoeuvre.

♃ in ♋

**Awkwardness or inhibitions**

It is important for you to be objective in your love life, for you to bring the ideals that you hold, from the realm of the mind, into practical reality. Don't let your lover accuse you of being cold. When you are in a stable relationship you have the ability to meet all sorts of difficulties with a minimum of fuss.

**Star Love**

**Your way of being, speaking and creating chances for yourself** is mirrored by your Sun, Mercury and Jupiter.

☉ in ♐

**Push to the limit**

With the Sun in Sagittarius you revel in taking things as far as they will go. You are generous and wish everyone to share in your happiness - often before you have enjoyed it yourself! A natural teacher and generous visionary, your concern for the future drives you into taking on every opportunity you meet. This can lead you into over-involvement in too many things. You become over-stretched, depleted, and even desperate. Regain your strength by being and moving in the open air. Enjoy action for its own sake. Move and be free. In this way discover and re-discover your direction. Experience the exhilaration of pointing to goals in life that will achieve all you wish for. Then enjoy the sheer riding experience of making the journey.

♀ in ♈

**Guarded**

With Mercury in Capricorn you guard your words carefully. What is said has to be useful, or it is not worth saying. When you do make a point, you push it with firm persistence. It is difficult to listen to others and accept you might be wrong. Conversations and "too much mental activity" can seem an irritating distraction. The crucial thing is to set out systems and techniques and carry them through, quietly and effectively. Your words carry authority and conviction. You are not a person to be denied.

♃ in ♈

**Taking a chance on love**

With Jupiter in Aries you create opportunities by plunging expansively into new situations. You constantly need to be bursting into fresh adventures and projects. You are fun to be with, always willing to "have a go" at anything exciting. Be aware you may be creating more expectation than you can fulfil. To experience more than the exhilaration of making a start is not so easy. Be realistic. Know what you want and persist.

**How you act, wonder and behave** is revealed by your Venus, Mars and Neptune

♀ in ♐

**Expectation**

With Venus in Capricorn you expect so much from love and relationships that you test new lovers, as if they were interviewees for a job! Love to you is a major commitment and something that must grow steadily to an ultimate achievement. What other people think, is vitally important. You can act as though your relationship is exposed to public scrutiny, even when no one else knows about it. The protection of propriety is always in your mind. Once through these trials, you work hard to ensure relationships last. Try to allow in joy and delicacy. Something so important should also be fun.

♂ in ♐

**Brad is a determined lover**

With Mars in Capricorn, you love and continue to love in the way you wish. You are firm in your resolve and determined in your actions. Because your path in life is uniquely and resolutely your own, it is not easy for you to adapt yourself to lovers. Obstacles are unacceptable. Those that will not be walked over, you refuse to be affected by, but carry on regardless. Stop, before you wear yourself out! Make a special effort to learn from your lovers response to you. Know the reliable and building joy of combining each other's energy.

♆ in ♏

**Playing with fear**

With Neptune in Scorpio, you are of the generation of people, who are fascinated by those dark and unusual depths of the psyche, where jewels of wonder stir with unnerving passion. Accepted behaviour takes second place to experiences that are difficult to deny. You cannot resist playing with fear, experimenting with the dark side and plunging into extreme limits of sensation. Confront and transform all this desire into something truly wonderful. Let the honesty of true contact make lovers permanently yours.

Love is beyond any one person, or planet of a person. Channel all your romantic talents, into an experience that takes you beyond yourself, into the World you always dreamed of.
