The Planets symbolize various energies manifesting as dynamics of personality.

The Signs qualify or colour these energies, rather like a filter over a light.

The Houses designate areas of life experience upon which these energies focus.

The Aspects express how these energies dynamically interact with one another.

Note: Ongoing planetary influences throughout your life - be they in the past, present or future - as they apply to the planetary positions at your birth, are given and interpreted in your **Star Soul Guide**.

Chapter One - Your Ascendant: Appearance and Persona**AS** in δ **Leo Rising**

You have a winning, confident and usually sunny exterior. But how much your inner being is living up to this outer show can be another story entirely. It is as if you project a successful image, which the rest of your personality has to live up to somehow. This can prove a very effective means of self-development, as long as you do not weaken.

Dignity, and pride in your appearance are therefore significant and important. This commanding impression as observed by others should not be underestimated or overlooked, because it is either convincing and effective or overbearing and affected. And responses from others vindicating your own actions or attitudes are easily believed. So beware of flatterers and bootlickers, for they could give you a false impression of yourself.

All the same, you do need approval and praise from others in order to maintain your confidence - so keep displaying your wares. You tend to attract unusual or unstable relationships that require a certain amount of detachment and freedom from possessiveness. This is in aid of offsetting or challenging the self-possessed or regal air, which you appear to have.

The Sun is your Ruling Planet, which governs the link between your exterior being and your interior being. So study Chapter Two - Your Sun Profile, with this in mind.

You also have the following planet or planets about to rise in the East at the time of your birth. Such planets are said to be in the First House. This further describes your appearance, persona and outlook on life.

Chapter Two - Your Sun Profile: Your Will and Purpose

☉ in ♋

Sun in Cancer

Your essential purpose in life is to nurture and care for whatever or whoever you believe needs it. At first, this is yourself! And the degree to which you received this support in childhood greatly determines how well you go about giving it to yourself or others as you grow older.

Esoterically, it is written that all souls are first born on to planet Earth in the Sign of the Crab, simply because they know intuitively that the Cancerian will is the one most likely to find a way of being looked after in their new home. Cancer has been called the "Lighthouse of Welcome", which is something that the individual Cancerian would do well to become. For when you seek to protect rather than just seek protection, your essential qualities of neediness, sympathy and emotional receptivity then become a recognition of where nourishment and care are needed, along with the motivation and method required to give and sustain them, rather than an aching dependency in itself.

What were clinging claws that can clam up in the face of emotional intrusion, then become a pair of open arms that holds firmly and cradles gently. The acute awareness that you have of another's feelings, which can be misused to emotionally blackmail them, becomes a ray of healing. And that vulnerable side-stepping becomes the sensitive approach that cares for more than just family - but all human beings. Cancer's motto could be "Who cares is cared for".

☉ in 12th House

Sun in the Twelve House

All of this is most likely to centre upon and be caused by experiences of the dim and distant past - of this life, womb-life, or even before that. Whether these experiences be like heavy shadows or like paradise lost, your will must bend itself to clearing out that closet of repressed longings, regrets and vague reservations.

Depending upon your Sun Profile as a whole, this can be quite some task, and will restrict your life to a degree that is proportionate to how much that closet has not been cleared. In the process, you can become a light in the darkness to others who are similarly confined by their fears and weaknesses. Inner peace for one and all is the only ultimate goal for you, so meditation, selfless service and psychological awareness are your essential ways of living. Because of your basically reclusive nature, you prefer to work behind the scenes, go into retreat occasionally, and not be too much in the public eye.

Your Sun Aspects

☉ ☐ ☾ ★★★★★☆

Sun challenged by Moon

What is mainly responsible for your difficulties here are the negative traits of your Moon Profile (see next Chapter). You could be said to be at war with yourself in that your habits and fears born of childhood keep eclipsing your brighter and better intentions. Relationships with members of the opposite sex are particularly prone to strife because they re-evolve those conflicts with your parent of the opposite sex which initiated this clash between your conscious intentions and your unconscious reactions.

Sun challenged by Jupiter

You tend to look for the confidence that you lack in yourself in other people - a need for confidence however, which your bright and optimistic air gives the lie to. When you do find it in another though, after initially being excessively admiring, you can then come to resent or envy them for having what you have not, and are pompously defensive.

It is almost as if you are afraid to live up to your own very real generosity and sense of goodwill. To put it another way, you have a strong faith in life and yourself, but unless you learn to accept your own inconsistencies or what is foreign or morally objectionable to you, then that "faith" will prove unreliable in the face of real challenges. Bearing goodwill to others is the key to your having goodwill towards yourself, rather than merely expecting too much of others, or of yourself for that matter.

Sun challenged by Neptune

Most significantly though, pervading your sense of individual will and being is something that causes you to feel not at all sure of who you are, and acutely sensitive and vulnerable to outside influences. There seems to be only a vague boundary that separates you from everything and everyone else. On the positive side this does equip you with great imagination and compassion as you cannot help but identify with the greater whole.

Negatively though, it can be very difficult for you to find a solid place in the material world. For this to happen, ultimately you have to see your purpose in life as being patently spiritual in the sense of doing something that employs and is aware of divine or invisible forces, or that meets the needs of others. Resisting or merely playing at this will find you deceiving yourself and feeling increasingly helpless and looking for artificial means of escape. Behind all of this is the probability that your fathers values confused your own.

The Sabian Symbol For Your Sun

Finally, to give a symbolic focus to the Sun in your Chart, here is the "Sabian Symbol" for the degree of the Zodiac at which it was placed at the time of your birth. The Sabian Symbols were devised by astrologer Marc Edmund Jones and a clairvoyant called Elsie Wheeler. They may be read as interpreted, taken quite literally, or be given your own more personal or subjective interpretation much as you would for one of your dreams.

Remember to bear in mind that the Sun represents the essence or core of your life and its purpose, and to note how its Sabian Symbol corresponds to your Sun Profile, and your Chart interpretation as a whole. The Sabian Symbol for your Sun is...

"A VERY OLD MAN FACING A VAST DARK SPACE TO THE NORTHEAST" - The eventual confrontation, after a considerable length of experience, that one has with one's dark origins, along with the retreat from the world that this requires. **Keyword: RECONCILIATION.** When positive, the inner maturity that enables you to reflect upon the deeper and graver issues of life and your role in it. When negative, a giving in to a sense of remorse and pointlessness.

Chapter Three - Your Moon Profile: Your Needs and Emotional Responses

Moon in Libra

Your reigning need is to have a partner, to have people around you, to have a definite social position. In order to satisfy this need you have an instinct for what pleases, and possess or acquire talents for things like cooking, decor, fashion, entertaining or anything that introduces a sense of harmony or togetherness to a situation. Perversely, not trusting this social sense can make you rather antisocial.

Your weakness is that you become so dependent upon life being nice and pleasant that you find it hard to confront the darker or less attractive parts of your personality. And because you do have grace and charm it is only too easy to maintain a superficial sense of things being all right. It is quite likely that this need to please has its roots in your having felt that you had to please your mother, father or whoever brought you up.

The irony is that your over-riding need for a partner ensures that sooner or later you do have to face what it is about yourself that is not at all easy to relate to - either because you have lost a partner or cannot find or keep one. An important advance is made when you have a partner with whom you can rationally discuss your mutual shortcomings without feeling rejected or unattractive - which is basically what you're so sensitive about.

Having confronted this issue, you then discover that your talent for making others, and therefore yourself, feel good is increased a hundredfold because feeling at ease with your own dark spots enables others to feel at ease with theirs. Ease indeed.

Moon in the Third House

All these feelings are greatly reflected in your relationships with siblings, your school years, and in how you go about your everyday affairs. Your feelings can lend themselves to the climate of the moment with some ease. This favours occupations running from counsellor to shopkeeper, from writer to local gossip. Such an ongoing curiosity as yours both dislikes routine and can dispel it.

Indeed, you have the common touch, and are invariably aware of what's happening locally. You can be intellectually stimulating, but may prattle on somewhat - it all depends what you fill your mind with, but fill it you will. Your ear-to-the-ground awareness is very useful in serving your Moon-Sign's needs, and it also enables you to keep your neighbours, and even the general public in touch with whatever you regard as nourishing, reassuring or emotionally significant.

Your Moon Aspects

Moon challenged by Sun

When expressed negatively, these feelings of yours play havoc with achieving your more creative goals. It is as if you unconsciously undermine your best interests. You are your own worst enemy, in fact. All of this stresses the importance of your becoming less self-protective and of accentuating your more positive and vital qualities. Live life - and let survival take care of itself!

Moon uniting with Jupiter

Everything about your Moon Profile is greatly emphasised. The best and the worst qualities are taken to extremes. You have a definite emotional gusto, which also bestows upon you a healthy body that maintains itself brilliantly and automatically. Because this can allow you to overindulge with apparent impunity you could wind up with weight or liver problems. By and large though, your physical and emotional zest can be a tonic to all and sundry.

Just beware of doting upon others too much, or of expecting others to dote too much upon you - for in either case you'd just drive them away.

Moon allying with Uranus

You are very able to suss out people and situations. You are the natural psychologist. Such a great sense of the truth may even frighten you, but it need not because this intuition of yours enables you to deal with most matters that life presents. You possess a lively and humorous mind that is also able to conceive of or manage quite large projects - that is, providing you have not used such a wonderful intuition merely to avoid life's challenges.

Moon opposing your Midheaven

Last but by no means least, you need a secure home-base where all these feelings of yours can feel protected and have room to adjust to changes, or simply to the end of the working day. You also have a strong sense of your roots, which can mean anything from feeling well established family-wise, to having to dig down deep to discover where you truly belong; it depends upon what your Moon Profile indicates overall. Your father is the real key to your emotional state, whether it is a feeling of security or insecurity.

The Sabian Symbol for the Moon

Now, to give a symbolic focus to the Moon in your Chart, here is the "Sabian Symbol" for the degree of the Zodiac at which it was placed at the time of your birth. As I mentioned in the last Chapter - your Sun Profile, the Sabian Symbols may be read as interpreted, taken quite literally, or be given your own more personal or subjective interpretation much as you would for one of your dreams.

Remember to bear in mind that the Moon represents your unconscious disposition and responses, and your emotional needs and security, and to see how its Sabian Symbol corresponds to your Moon Profile in particular, and your Chart interpretation as a whole. The Sabian Symbol for your Moon is...

"A RETIRED SEA CAPTAIN" - An end of adventures out into the wide and wild world that is now marked by a reflection upon them and possibly a creative portrayal of them. **Keyword: RECOLLECTION.** When positive, your relaxed and worldly awareness that profitably draws from its experience and provides the necessary poise that is required for possibly less mobile enterprises. When negative, dreams of past glories and exploits, coupled with the frustrated desire to relive them.

Chapter Four - Your Midheaven Profile: Career and Status

MC in ♈

Aries at the Midheaven

You need a certain boldness to make your way professionally in the world. So the nature of Chapter Seven - Your Mars Profile will bear greatly upon this, indicating in what style, and with how much ease or difficulty success may be accomplished. You would do well in any profession that entails some kind of pushing, selling or pioneering - which could include the military.

Holding a leading position in your career is also quite desirable, as is having the freedom to do things your own way. At times you may have to fight pretty hard to maintain or achieve a certain position. This proves to be worth it in the long run, when you are at last way out in front.

You achieve success more easily when matters are kept straightforward, clean-cut and simple - and, most of all, if you are patient.

Chapter Five - Your Mercury Profile: Perception and Mentality

♀ in ♌

Mercury in Leo

Yours is a creative mind, a mind that likes to play and thereby come up with creative ideas. Consequently you can be known for your distinctive and humorous verbal style. You identify strongly with the way you think and take pride in doing so. The price that you pay for such a vital mentality is that of either overplaying or underplaying your hand; the reason being that you are frightened of not making a big enough impression or of looking ridiculous. In the end, you have to have the courage to put your money where your mouth is - and rely upon your undeniably bright mind to pick up the mental thread should you lose it.

♀ in 1st House

Mercury in the First House

This way of thinking and perceiving is quite obvious upon meeting you. You are known for what you say and how you say it. Your mental attitude is highly important because when you put out a negative idea or remark it will quickly make others avoid you. Conversely, when your mind is in a curious and active mode, you attract interest and stimulation, and people desire to make and maintain contact with you. Your physical appearance itself is usually slim or wiry, mobile or fidgety, and your hands and face are very expressive. Versatility can be your identifying feature - along with your wit and sharp perception. But it is crucial that you do not identify too much with these mental characteristics. Funny and clever as they are, there is far more to you than just your wits and perception. But as they are so upfront, that is all others might choose to see.

Your Mercury Aspects

♀ ✳ ♃ ★★☆☆☆

Mercury working with Neptune

Through all of this you should always be aware that you have a cultured and imaginative mind which should not be wasted on purely mundane pursuits. You have a subtle or poetic perception of the world, and could be an exponent of the literary or visual arts - or at least have a keen appreciation of them. There is also the strong possibility of your being able to attune your mind to the thoughts of others. You have a very valuable mind.

♀ ♂ ♃ ★★★★★

Mercury uniting with Pluto

When it comes right down to it, yours is an extremely profound mentality. At the very least you have a knack for getting to the root of a matter. Taken further, you are able to reach a deep understanding of the actual workings of the Nature of Life itself. But it is just because of this profundity of your thinking that all mind games and mental conceit have to go. If not, you are doomed to a life of intellectual conflict and mental paranoia.

♀ ♂ AS ★★★★★☆

Mercury uniting with your Ascendant

The indications described above under Mercury in the First House are strongly emphasised and I suggest that you note them as such, and how they relate to the whole of your Mercury Profile.

Chapter Six - Your Venus Profile: Attraction and Harmony

♀ in ♌

Venus in Leo

You are the archetypal romantic. On the face of it you are madly affectionate, filled with fiery passions, and inject masses of fun and imagination into your affairs of the heart. Consequently you can transport your paramour to previously undreamed of emotional heights. Inevitably though, this means that you have to understand that you're playing the role of king to your queen, or vice versa, as far as your love life is concerned.

In other words, the royal qualities of respect and nobility must be very alive in your breast if a relationship is to survive or live up to your fairytale expectations. Respect means that you must be mindful that both of you are entitled to equal amounts of freedom and commitment. Nobility means that both of you must behave in a manner that commands respect. But the salient factor is that first you must set this example in order that your mate be truly impressed by your great love - great because it is both generous of spirit, and respectful of the other's individuality.

♀ in 1st House

Venus in the First House

These qualities of love and beauty express themselves primarily in your actual physical presence, appearance or manner of expression. You are either lovely to look at or pleasant to be with - or both. If you are the former, your looks could take you far in one respect, but hold you back in another, simply because you haven't had to do anything other than just be there.

This can be very much the case if you are a female who is past her prime. Essentially you have the great asset of being attractive - which is just that, ie others are drawn to you. If you have some inner quality to offer as well, then you have the best of both worlds. Your art is the way you are.

Your Venus Aspects

♀ ✳ ♃ ★★☆☆☆

Venus working with Jupiter

There should be plenty of opportunity to satisfy these appetites and predilections of yours. This is because you have a naturally generous disposition, which life and the world are only too happy to reward. You have a sense of largesse that can attract success and enjoyment in any number of fields - both socially and professionally. Essentially, what you have is a sense of bounty and joy. This can incline you towards overindulgence in the pleasures of life, but all in all, people find you a pleasure to have in their midst.

♀ ✳ ♅ ★★☆☆☆

Venus working with Uranus

Most of these qualities of yours do have a relaxed feel about them, and can, if you let them, attract free social and emotional interaction. Such lively sparkle should always make you desirable company. The essence of this trait of your personality is one of humans loving one another for being the individual humans that they are - so nothing should be allowed to get in the way of this!!

♀ △ MC ★★★★★☆

Venus allying with your Midheaven

You employ the attributes of your Venus Profile as described here in a professional capacity - or if you don't, you certainly should. Your strengths and weaknesses in this respect, either advance or hold you back in your career. In any event, art, grace, beauty, or a sense of harmony is central to your profession.

Chapter Seven - Your Mars Profile: Self-Assertion and Sexual Drive

♂ in ♍

Mars in Virgo

You assert yourself best when you have learned and use some sort of technique. Then whatever you do, you do with thoroughness and precision. You are very exacting of others in their work - and sexually too - and you like to keep the score. You know how to hit the right spot, but make a fuss if your opposite number doesn't.

In effect, you have given yourself quite a tall order of satisfying your desires and your need for purity at the same time. This can mean that you put yourself out of the running altogether for a time - or work yourself into the ground trying to achieve perfection. If you allow yourself to become neurotic about this, your health could suffer. So relax and stop driving yourself to do the impossible when your best will more than suffice.

♂ in 2nd House

Mars in the Second House

This way of asserting yourself has to, or likes to, express itself most of all in the pursuit of your self-worth and a financial income that matches that self-worth. Looked at in another way, your financial state reflects not so much the value you place upon yourself, but upon the energy that you are prepared to put into improving it.

If you simply desire to have plenty of money and are not too fussed about how you go about it, then money is what you'll get. If on the other hand, it is an increased and truer sense of self-worth that you are after, then how much money you have should not be regarded as a measure of this. But whether it's money or self-worth that you are in pursuit of, your Mars Profile as a whole reveals the pros and the cons of gaining them. It also indicates something of the nature of your worth, and how your income is best earned.

Your Mars Aspects

Mars unaspected by any other planet

Basically and at first you are not too sure of what you want in life, or of how to go about getting what you want. But all this very much depends on whether you are male or female, and the rest of your Mars Profile.

If you are a male, you are quite likely to over-compensate for a fear that you are somehow lacking in this respect by attempting to be "extra" masculine. This could take the form of picking fights, body-building, macho or dangerous sports, "scoring" with females, sexual conquests, etc. The way in which you go about this and the degree to which you do so, is further described by the Sign and House position of Mars.

If you are female, then you are likely to attract or be attracted to males of the above-described type - that is apparently typical "men". In any event, and in the face of this, you would have trouble with consistently asserting yourself.

On the other hand, if you are a male, you might at some stage, sooner or later, realise that it is entirely up to you to define what being "masculine" means. In this case, you will express the more subtle qualities of Mars Profile. Likewise, if you are female, there can be an attraction to men, who have thus begun to re-define, or are in the process of re-defining, their maleness. Indeed, you too could want to re-define your assertiveness.

The actual challenge then is to express and integrate your desires and to deal with any anger caused by the frustration of those desires. This means that you are having, to distinguish between what you want for yourself and what someone else wants or wanted you to be. This poses your having to find the courage to be true to yourself. Having the freedom to accomplish this is your subtle advantage, for deep down - even though you might not know it - you have your own unique way of asserting yourself.

Chapter Eight - Your Jupiter Profile: Faith and Understanding

♃ in ♎

Jupiter in Libra

Your philosophy of life has mainly to do with your sense of justice, as you experience it in a personal way within your one-to-one relationships. It can also come from how you perceive it, or the lack of it, in society in general. In other words, your faith in life rests upon a belief that justice exists. If it does not - or it appears not to - your faith diminishes.

Conversely, when you are aware that justice prevails, you feel happy to go on. What you have to bear in mind is that justice is not always apparent on a surface level. By its very nature, justice often has to be sought - be it in your mind or a court of law.

♃ in 3rd House

Jupiter in the Third House

Most of all, you apply this faith to, or look for it in, your everyday interactions with others. You are the type who brings philosophical concepts into the most ordinary spheres of everyday thought. Sometimes such high-flown ideas as you expound to all and sundry can be impractical and out of place, and you come across as being wordy and abstruse. But, with your broader viewpoint, bend the ear of the common man you certainly will - despite his narrowness or incomprehension.

Your Jupiter Aspects

♃ □ ☉ ★★☆☆☆

Jupiter challenged by Sun

It's a fact that any negative traits regarding the nature of your beliefs, enthusiasms, cultural attitudes, or want of faith, as described here, can get in the way of your progressing much in life at all. So you must pick out the best, and discard the worst, if you wish to get on and enjoy life. Through endeavouring to do this, you create an increasingly alive and original concept of reality with which you can teach and inspire others.

♃ ♀ ☾ ★★★★★

Jupiter uniting with Moon

There is something very natural about the way you express your faith and enthusiasms. One could say that your faith was inborn. This may of course mean that you simply subscribe to the religious persuasions of your family or racial background - whatever they may be. Being quite so subjective about your spiritual convictions, you may well under- or overestimate them.

♃ ✨ ♀ ★★☆☆☆

Jupiter working with Venus

Fortunately, the quality of your beliefs and ethics is appealing to most others. This is a fair asset for it means that something about you bears the promise of happiness and health and better things to come. I for one hope you make the most of this broad and beautiful streak of your personality.

♃ △ ♅ ★★★★★

Jupiter allying with Uranus

Very fortunately, you have awareness, that there are systems of belief which are liberal, non-judgmental, and that make provision for human nature rather than merely dictate to it. This healthy attitude of yours - not to mention a great sense of humour - attracts the faith and interest of others who bestow funds, guidance or lasting friendship upon you.

♃ ♁ MC ★★☆☆☆

Jupiter opposing your Midheaven

You have inherited this brand of faith and philosophy. This means to say that it is in your blood and so therefore you are not that conscious of it; it is just there. At some stage it may well be necessary for you to become more aware of the nature of this inheritance because either it is a negative faith and it is doing you no good, or, it is positive and you are not making the most of it. Your father's beliefs, or lack of them, have a lot to do with all this.

A sign of your innate faith or luck can be seen in your domestic affairs and where you live. Your abode may well be large, mobile or involve human growth activities.

Chapter Nine - Your Saturn Profile: Lessons and Responsibilities

♄ in 69

Saturn in Cancer

You are learning the true meaning of care and sympathy; striving to gain an objective view of emotional involvements, but without becoming uninvolved altogether. In order to gain this view you are sometimes made to feel emotionally alienated. You are forced to discover precisely what you feel and who you feel for.

It is difficult for you to pretend to feel what you do not. And even if you do, it comes across as obviously false. When you manage to express your feelings genuinely, your inner strength is of great help and a great lesson to others - possibly even in a professional capacity.

♄ in 12th House

Saturn in the Twelfth House

None of this comes to you at all easily; nor perhaps does the establishing of a material position in life. It is as if you are first having to make amends for past misdeeds which are reflected as anything negative in your Saturn Profile, which may simply mean failing to act upon it, or that you have never felt enough sense of personal authority to achieve.

So you have to go downwards and inwards in order to discover what lies hidden deep within you that makes you feel as if you've got a monkey on your back. This plumbing of your depths, this contacting and obeying your conscience is essential. Either you achieve it voluntarily through meditation, psychotherapy or creative work, or, you are driven to confronting yourself through some other form of confinement or solitude. The inner stability that you can eventually attain through these means is complete and permanent, for you will have vanquished the most powerful demon of all - the demon within.

Your Saturn Aspects

♄ □ MC ★★★★★☆

Saturn challenging your Midheaven

To add to all this, you have your work cut out in making sure that both private and professional commitments are equally maintained. As a negative role model, one or both of your parents is or was probably very bad at this. Apparently it takes you longer than others to get anywhere, but when you do you stay there.

Chapter Ten - Your Uranus Profile: Awakening and Freedom

♅ in ♊

Uranus in Gemini

You belong to a generation (born during the early to late 1940's) whose intention is to reform thinking patterns, and the use of the written and spoken word, or to institute social change through the use of the written and spoken word. Your generation also aims to bring the fruits of science, technology and metaphysics into the everyday sphere of human activity.

♅ in 11th House

Uranus in the Eleventh House

Your urge for change and awakening is most likely to manifest itself quite directly in your pursuance of social ideals and collective goals. Friendships and group involvements also act as clear indicators of how well you are on course with your true path in life, as they stimulate your principles through attack or support.

Groups of friends can change quite radically as you shift gears and get closer to your goal. However, it is important that you do not confuse your goals with your material ambitions, for the former take a lot longer to achieve than the latter. Freedom and friendship are very important to you, and you promote them.

Your Uranus Aspects

♅ △ ☾ ★★★★★☆

Uranus allying with Moon

You instinctively manage all these forces for change and liberation with a certain ease and an innate sense of what is true and right. You find that by being loose and open to the promise of the future, and avoiding tucking yourself away somewhere "safe", you are able tune in to your own truth, which is your creative spark. You can also guide others to theirs, and reassure them in times of stress.

♅ ✕ ♀ ★★★★★☆☆

Uranus working with Venus

Eventually it dawns on you how attracted you are by the call to freedom, innovation and experimentation where interpersonal relationships are concerned. When injected with new ideas about yourself in this way, and through using your actual artistic gifts or developing your very real but latent ones, you find happiness for yourself, and for others who gain from your style and social awareness.

♃ △ ♃ ★★★★★

Uranus allying with Jupiter

Fortunately, whenever this need for change or freedom arises, you are guided by what has been aptly called your "Well-travelled Soul". This means that you have the innate ability to recognize when change is necessary, and the positive advantages it would bring. Consequently you conduct changes in a smooth and optimistic way that benefits both yourself and others too.

Behind all of this you possess a fairly laid-back philosophy of life. The only possible danger here is that of your turning what is essentially a lucky streak into a complacent one.

Chapter Eleven - Your Neptune Profile: Sensitivity and Spirituality

♆ in ♎

Neptune in Libra

You belong to the Neptunian generation born between 1942 and 1957. As this generation came of age, the whole Libran realm of love and marriage, art and music, and society in general, came under Neptune's subtle spell. This gave rise to an increased sensitivity to relating and sexual equality, with confusion and soaring divorce rates not far behind. Whether or not you see yourself as an active part of it, this was also the "love" generation who marched for peace, gathered in great numbers at music festivals, experimented with psychedelic drugs, and embarked upon a more universal quest for spiritual meaning - or for an escape from mundane reality.

♆ in 3rd House

Neptune in the Third House

You have in you a poetic or literary talent, or at least the ability to introduce into the commonplace a ray of wonder, a spiritual insight, an element of relief. Alternatively, your intellect may feel confused by apparently irrational notions.

Your early school years would either have found a way for your imagination to flow freely, or would have stamped on it as mere day-dreaming, with the consequence that you now block your imagination and brand it as impractical or irrational. But a failure or reluctance to give expression to the play of your imagination, finer feelings, or sense of some greater all-inclusive reality can give rise to mental aberrations such as paranoia, unreliable recall, mis-recording of information, obsession with facts, etc. as the greater reality breaks down your mental barriers.

As if to prove the point, any brothers or sisters will embody Neptunian traits that range from the creatively inspired to the glamorous, from the compassionate to that which needs or elicits compassion. Indeed, your relationships with siblings and neighbours either evoke feelings of estrangement through lack of rapport, or more hopefully, a subtle, unspoken understanding.

Your Neptune Aspects

♆ □ ☉ ★★☆☆☆

Neptune challenged by Sun

These issues of sensitivity and spirituality are central to your life. Without understanding this and the implications of your being considerably more attuned to higher or finer vibrations than most others, you are liable to get increasingly lost and confused, and be a fool to yourself. The most important turning point occurs when you realize that all you long for or fear as being on the outside, is really inside you. Ultimately, you are either mystic or misfit, healer or helpless, inspired artist or hopeless dreamer.

♆ ✕ ♀ ★★☆☆☆

Neptune working with Mercury

You are blessed with the ability to communicate freely or to give expression to these sensitive areas of your personality in some other way. Innate skills in the healing or performing arts are just a part of your multi-talented nature. Watch out though - for such ease of expression can make you blasé or indolent.

♆ ✖ AS ★★★★★☆

Neptune working with your Ascendant

These subtle nuances of your personality are visible to others - but only as you choose to display them. There is a mystique and a healing aura about you.

Chapter Twelve - Your Pluto Profile: Power and Transformation

♇ in ♌

Pluto in Leo

You are a member of the Plutonian generation (1937 -1958) which, apart from many other things, saw World War II and the advent of nuclear power and the atomic bomb. All this shifted the world into a process of transformation from which it can no more retreat than a nuclear power station can be closed down overnight. This transformative power which forces us to contact the hidden origins of all things is now unleashed, and your personal role in this global psychodrama is revealed below.

♇ in 1st House

Pluto in the First House

You actually embody what Pluto is all about. This gives you a powerful presence and a magnetic intensity, as well as an acute and even obsessive self-consciousness. This is because it is your own identity and image itself that is undergoing a process of transformation.

False or outworn ideas of yourself attract drastic upheavals, which take you down to more profound levels of consciousness. More and more you see right through to the very core of things - nothing else satisfies. As if to bear witness to this, your eyes have a penetrating gaze, or are like unfathomable pools.

This look and presence of yours has a provocative effect upon others - and this can cause you to feel quite alone at times. It is very much down to you and your psychological attitude as to whether you provoke a healing process in others as you manipulate the way they think and feel, or whether you merely antagonize them, and thereby feel even more outcast. On the other hand, don't make an apology for this unavoidable psychological effect which you have upon others, for that would just make them suspicious of your intentions. Instead, you must learn to use your powerful persona creatively.

Your Pluto Aspects

♇ ♀ ★★★★★

Pluto uniting with Mercury

Because you have an intensely probing mind, you are aware of matters that are secret or usually hidden from common view. This mind power probably attracted someone during your life who wanted to set about disempowering it. Owing to this or a similar confrontation whereupon you had to hide, prove or win back your mental might, you are now inclined to put too much store by it. Realise that it is what your powerful mind can perceive that is significant, not so much your mind itself, otherwise interminable mental obsessions will be your lot.

♇ ♀ AS ★★★★★☆

Those profound characteristics of yours, which I described above under Pluto in the First House are even more heavily emphasized - so here's looking at you!
